

OPHTHALMIC OPERATION TABLE

Model : SS-1

Stainless Steel Body

- High quality operating table for optimum work environment and patient safety.
- Developed in close collaboration with leading clinics.
- Include smart innovations and improvements that have resulted in unique performance.
- Several areas of use with focus on surgical procedures around the patients head.

Great care has been put in the design of the table and its accessories to improve the freedom of movement for the surgeon and assisting personnel in the vicinity of the patients head. The weightless headrest is comfortable for patient and its unique ergonomic design reduces patient pre-op preparation time considerably. Thanks to smooth surface and smart seams as well as cushion that are easy to remove, the table is easy to keep clean and hygienic.

The hand control has an intuitive layout with easy choices in function where back leg and seat cushion as well as height can be set individually. Special quick buttons are available for zero level positions.

Specification
